Pharmacy RxSafe® Automation

- Wahiawā Health's in-house pharmacy uses an RxSafe automated drug dispensing system called PakMyMeds™ that provides prescription accuracy and simplifies taking medications.
- PakMyMeds organizes prescription medications into individual pouches labeled with the intended date and time to be taken.
- For patients with multiple prescriptions, the RxSafe medication dispensing improves patient safety and health outcomes.

A federally qualified health center, providing residents of Wahiawā, Waialua, Mililani, Schofield, Kunia and our neighbors a single point of access to comprehensive and quality health care.

- 📍 **Diabetes Specialty Center - Suite 214**

Our Mission

In the spirit of aloha & compassion, we provide access to affordable, quality health care & wellness services to promote a healthy community.

*Serving Wahiawā, Waialua, Mililani,
Schofield & our neighbors*

Feb. 2024

Wahiawā Health developed a culturally relevant diabetes specialty center based on a holistic approach. The center incorporates medication management, social determinants of health, and community health outreach to create a bridge between primary care providers, pharmacy services and community resources.

Diabetes Specialty Center

Diabetes Specialty Center Services

- Wahiawā Health's diabetes management team provides education to its diabetes patients to help improve their quality of life, self-manage their illness and reduce medical costs. Services include:
 - Diabetes screening, diagnosis, prevention and evaluation.
 - Improved health through recommended lifestyle changes, patient education, nutrition counseling and dietary management.
 - Lowering A1c levels, blood pressure & cholesterol.
 - Monitoring blood glucose levels.
 - Physical activity guidance.
 - Weight and stress management.
 - Monitoring of oral medications and, if required, insulin use.
 - Care for special populations including kūpuna.

Clinical Pharmacist Provides Patients with:

- A comprehensive medication management session via Telehealth and in-person visits.
- Free medication delivery to the patients' home.
- Screening for depression and/or stress and referral to our clinical psychologist or psychiatric nurse practitioner for mental health care.
- Glucometers and blood pressure cuffs provided by the American Heart Association to monitor hypertension.

Community Health Outreach

- Wahiawā Health's community health outreach team helps address challenging barriers in the community and enhances medical care access by:
 - Helping set up transportation to medical appointments.
 - Delivering medications.
 - Connecting patients to resources such as food, housing, hygiene supplies.

Behavioral Therapy

- Our team of behavioral therapists utilize several methods to help patients understand thoughts that negatively impact their behavior.
- Benefits of behavioral therapy can give people hope about their condition, improve self-esteem, help them relax and develop a more rational thought process.
- Patients can learn to become more self-reliant and responsible for change, building self-confidence and help increase participation in their diabetes treatment.

Insurance

We accept all forms of insurance, including AlohaCare, United Healthcare, HMSA, HMAA, Ohana Health Plan, UHA, Tricare Select, Medicare, Medicaid and other private insurance. If you do not have insurance, we can assist with enrollment and provide discounted services on a sliding fee scale.
